Military Coup In Guatemala
New Government Pledges To Combat Subversion

GUATEMALA April 1 (AP) - The armed forces which overthrew President Miguel Ydigoras Fuentes here today said it was creating a "national guard" state to safeguard the country and promised to combat "terrorism and subversion." The new government, headed by Field Marshal Gen. Jose E. Elera, declared that Ydigoras had tried to overthrow the constitutional order and that it would not interfere in the internal affairs of neighboring countries. The coup was announced by Defense Minister Mario A. Andrade, who said the military would take over the government for a year and then hold a national referendum on the formation of a new government.

Algerian Delegation
Arrives In Syria For Unity Talks

PARGAINE, Syria April 1 (UPI) Algiers, April 1 (UPI) - An Algerian delegation arrived here today for talks with Syrian officials on the establishment of an Arab Federation. The sources said Algeria would represent Afghanistan at the conference, which will be attended by representatives of 16 Arab states. The conference is expected to take place in Damascus. The Algerian delegation was welcomed at the airport by a large crowd, and the talks are expected to last until Monday.

OF US AND DEMOCRACY

By TUPFERS

Washington Post

WASHINGTON. April 1. (AP)

The Administration, held out today the challenge of democracy to the world, a form of government in which the people are free to choose their leaders. The President said that democracy should be the goal of all peoples, and that it is the birthright of all nations. He said that the United States is committed to the principle that all people should be able to elect their own leaders and to govern themselves.

IMPROVED PROSPECTS

For Nuclear Power

Development

Improved prospects for commercial power within the next few years are indicated by the results of a number of studies which have been conducted in recent years. These studies have shown that nuclear power can be used to generate a considerable amount of electricity, and that it can be used to meet the needs of a large population. The nuclear power industry is expected to grow rapidly in the next few years.
