WHAT KIND OF PRESS

Now that members of the
Committee for working out
the future of a country under
the direction of a Con-
ciliar government have been
chosen, it will be in-
structive to take a closer
look at this process in
order to understand the
reasons behind it.

As members of the Con-
ciliar government, they
will have to make the
important decisions that
will affect the future of
the country.

It is essential to
understand the
process of working out
the future of the country,
and to be aware of the

Revival of "Sultanate Culture" by Afghan Kings in India

As for the press, it is likely
to be in the hands of the
government, as indicated by
the fact that the government
has been the one to issue
the decree.

However, this must be
taken with a grain of
salt, as the press should be
allowed to operate freely,
and not be controlled by
the government.

The American Ambassador
in India, Mr. W. E. Wheeler,
spoke of the importance of
the press in influencing
public opinion.

He said that he was in favor
of a free press, as it was the
only way to ensure true
democracy.

"The press is the voice of
the people," he said. "It is
the only way to ensure true
democracy, and we should
work towards that end."
