KABUL TIMES JULY 15, 1963
KABUL, July 15.—Kabul, July 15.—A hundred of Soviet made diesel tractors will be distributed by the Ministry of Agriculture to the farmers in Mazar-e-Sharif in the near future. The farmers will be paid for the tractors in instalments: $...

Mr. Mohammad Ali Akbarzadeh, director of the technicum and engineering section of the Ministry, told a Bakhtar reporter that there were two kinds of agricultural machinery at the Ministry—manually operated machines including gadgets for weeding, sowing and fumigating. This equipment increases work efficiency about 20 percent as compared with tools available locally. Heavy and light traction machines; these machines range in traction capacity between five and twenty-five horse power.

Referring to the import of these machines, he said samples were requested and put into experimental use. Those which were most suited for the agricultural conditions of the country were then ordered.

The contract for the purchase of 100 tractors for Mazar-e-Sharif farmers has already been signed with a Soviet tractor firm.
