ECONOMIC REPERCUSSIONS OF EXPENDITURES

In recent months and months, there has been a noticeable trend in the economic situation of the Philippine government. This trend has been characterized by a decrease in government spending, which is expected to continue in the near future. The government has been focusing on reducing its expenditure to control inflation and to support the country's economy.

On the other hand, the government is also taking steps to increase economic growth by investing in infrastructure and development projects. The government is expected to allocate more funds for these projects in the coming months.

In terms of fiscal policy, the government is expected to reduce its spending by 10% in the next fiscal year. This reduction will help to reduce the country's debt and to improve its fiscal position.

The government will continue to implement policies that will promote economic growth and stability. This includes the implementation of tax reform measures, which will help to increase government revenue and to reduce the country's debt.

The government is also expected to continue its efforts to attract foreign investment, which will help to increase the country's economic growth and development.

Overall, the government's policies are expected to have a positive impact on the country's economy in the coming months. The government's commitment to reducing its expenditure and to implementing policies that promote economic growth will help to improve the country's fiscal position and to support its economic development.

THE LANGUAGE PRESS

AT A GLANCE

INFECTION

By H. Knight

The government officials for the examination of the progress of the project, Philippines for the formation of each island group, decided to meet with representatives of the island groups to discuss the project. The meeting, held in the Philippines, was attended by representatives from the different island groups.

In the meeting, the government officials and the representatives from the different island groups discussed the progress of the project and the issues related to it. The government officials assured the representatives that the project would continue and that they would work to resolve any issues that may arise.

The representatives from the different island groups thanked the government officials for their efforts and agreed to continue working with them to ensure the success of the project.

EXPEDITION TO CONQUER HINDUKUSH

Plasma To Power ‘Europe 1’

Thrust speed of the plasma rocket—att the Strasbourg meeting of the European Space Research Organization (ESRO) is expected to provide a new dimension in space travel. Plasma rockets are expected to revolutionize space travel, offering significant advantages over traditional rocket engines.

The ESRO meeting featured talks by experts from around the world, including innovative ideas for plasma rocket propulsion systems. The talks were aimed at exploring the potential of plasma rockets in various space applications, such as interplanetary travel and satellite launches.

The meeting also featured a discussion on the challenges and opportunities associated with plasma rocket technology. The experts highlighted the need for further research and development to overcome these challenges and to harness the potential of plasma rockets.

Overall, the meeting was a significant event for the advancement of plasma rocket technology and its potential applications in space travel. The talks and discussions provided valuable insights into the future of space exploration and the role of plasma rockets in shaping it.
S. AFRICA WITHDRAWS FROM U.N. ECONOMIC COMMISSION FOR AFRICA

PRETORIA. Thursday, July 11, (Burndale).—South Africa has informed the United Nations Economic Commission for Africa in view of the hostility now being shown to the Commission by many African nations of the African type. A copy of the letter was presented to Dr. Hendrik Verwoerd, announced here last night.

Soviet-Chinese Talks Continue; No Progress Sign

MOSCOW, July 11.—Secret talks between officials of the Soviet and the Chinese Communist leaders held during the week again failed to show any signs of breaking the 16-year cold war between the two nations.

At the same time the two nations continued to denounce each other, the Soviet leaders making fresh attacks on American and British support of China's enemies.

No Nuclear Warheads In Middle East

British Foreign Office

Corrects Heine's Statement

LONDON, July 11, (AP).—The British Foreign Office has issued a statement correcting the statement issued by Dr. Erich Honecker, East German Premier, that Britain has been making secret agreements in the Middle East to aid the United States in the event of a nuclear war.

The statement said that there were no such agreements

A Foreign Office spokesmen de clared: "The British Foreign Office at no time has made any secret agreements in the Middle East to aid the United States in the event of a nuclear war."

The British minister, the spokesmen said, had not visited the Middle East and "therefore it was not possible for the British Foreign Office to have made any secret agreements in the Middle East to aid the United States in the event of a nuclear war."

USIA Demands Fijis' Constitution Should Be Suspended

KARLIS, July 11.—The United States has demanded that the Fijian government suspend its national constitution.

Mrs. Jilson, acting secretary of the Fijian government, has issued a statement that she has no intention of suspending the constitution.

Another statement was issued by the American government that it reserves the right to intervene if necessary.

Khrushchov Takes Part In Opening Session Of Test Ban Talks

Talks To Continue Today

WASHINGTON: Secretary of State John Foster Dulles today told the United Nations that the United States would continue to negotiate for a test ban, but that the United States would not accept any test ban that would result in a loss of nuclear deterrence.

The United States would not accept any test ban that would result in a loss of nuclear deterrence.
