Bakhtar News Agency
AFRICA AFTER ADDIS ABBABA

These factors, as well as others, are considered to be more important than the peace agreement itself in determining the future of Ethiopia. The African foreign ministers meeting in Addis Ababa are expected to continue discussions on the specific terms of the agreement and to consider ways of ensuring its implementation. The African Union, on the other hand, will play a significant role in monitoring the implementation of the agreement.

The peace agreement in Ethiopia, as well as the ongoing conflict in Sudan, have highlighted the importance of regional cooperation in resolving conflicts in the Horn of Africa. The African Union, along with other international organizations, will continue to monitor the situation and provide support as needed.

The peace agreement in Ethiopia has also opened up opportunities for economic development and cooperation in the region. The African Union and other international organizations will work to facilitate these opportunities and to promote peace and stability in the Horn of Africa.

The peace agreement in Ethiopia is a significant step towards resolving the conflict and promoting peace and stability in the region. The African Union and other international organizations will continue to monitor the situation and provide support as needed.
Hydrological Work in Afghanistan

[Continued from page 1]

high-pressure water system and the use of water for irrigation and domestic purposes. The water is drawn from rivers and streams, which are the main sources of water in Afghanistan.

Another important factor for the growth of the agricultural sector in Afghanistan is the availability of water resources. The government has been working towards the development of water resources for irrigation and other purposes.

A certain bill would eliminate the employment of sealers and the majority of the existing water resources are likely to be lost.

In conclusion, the government needs to take necessary steps to ensure the availability of water resources for the growth of the agricultural sector in Afghanistan.
