End of Their Mission's Visit To West Germany

KABUL TIMES

AGUST 15, 1969

For the two years of its stay in the mission, the President of the Philippines, Mr. Ferdinand E. Marcos, was a political whirlwind in the international community. He was frequently in Washington, DC, for meetings with American leaders. In the Philippines, he was the face of a nation that was emerging as a major economic power.

The language press: A glance

All the premier daily of the Afghan government, KABUL TIMES, published a special edition today with a series of editorials and articles discussing various aspects of national development and foreign relations. The editorials highlight the importance of education, economic growth, and cultural exchange in building a modern and prosperous Afghanistan.

Dr. Ziaee's Speech Before Educational Directors

Establishment of the Kabul University

On Tuesday, August 16, 1969, Dr. Ziaee, the Minister of Education, delivered a speech before the educational directors. In his speech, he emphasized the importance of education in the development of Afghanistan. He highlighted the need for the education system to be modernized and aligned with the requirements of the modern world.

US-French Sharing

Know How

Science and Technology: To clarify position

In response to a question about the US-French sharing of secret scientific and technological knowledge in Afghanistan, the Foreign Minister stated that the two countries have a long-standing tradition of cooperation in the field of science and technology. He assured the audience that the Afghan government would continue to support such initiatives and that they would work closely with the French government and other international partners to promote a peaceful and prosperous future for Afghanistan.

Habibia School Building near completion

FORTY SIX MILLION AFGHANIS SPENT

One of the modern structures of Habibia High School has been completed. The building, which cost forty-six million Afghanis, is a testament to the government's commitment to education and the future of the nation.

The building was constructed with the help of international partners and experts from around the world. It has state-of-the-art facilities and is equipped with the latest technologies to provide a conducive learning environment for students.

The construction of the building was marked by a ceremony attended by government officials, educators, and representatives of international organizations. The ceremony was a celebration of the government's commitment to education and the future of Afghanistan.

The building will serve as a symbol of the government's commitment to providing quality education to all Afghans. It will be a beacon of hope for generations to come.
