

### Comparison of Historical Data versus CPAR 2010 to 2050 Projections by Race/Ethnicity

Sources: 1980: Table 16, Gen. Pop. Chars (Vol 1, Chpt B) & Table 59, Gen. Soc/Econ Chars; SF1 for other years  
 Notes: 1980 Other NH detail is from sample data - proportions were applied to the total number from the headcount.  
 Some figures here are slightly different than other reports given later revisions to Census headcounts. Projections took the Hispanic and Other NH migration rates down by a percentage in each subsequent decade.

The shading shows the 1990s changes for Other NH were impacted by the addition of the 2+ race category in 2000. Taking out the effect of the 2+ races, the Other NH migration rate would be 25.9% in the 90s and 9.6% in the 2000s.
