Export Data:

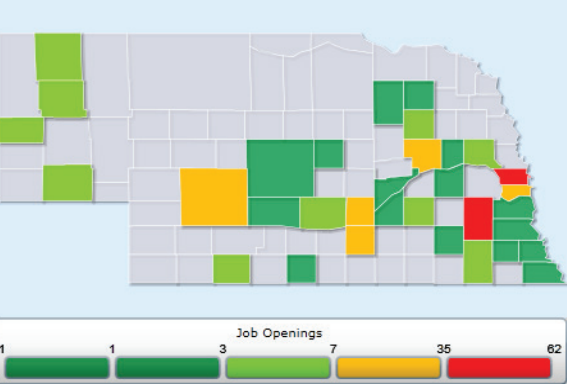

Generate your own data set and export it for further usage. Data that can be exported from the site will have an option at the bottom of the section. Data can be exported in either Excel or text format.

Choose the Right Mode:

- **Summary mode** displays all available information for that area, industry, or occupation.
- **Narrative mode** provides an easy-to-read text summary of the data.
- **Detail mode** focuses on one specific attribute (wages, projected employment, etc.).
- **Comparison mode** allows you to choose two areas, industries, or occupations and study the different characteristics of each.

Create Maps and Graphs:

In the display options, check the boxes for Graphs or Maps. To zoom in on maps, draw a box on it while holding down the shift key. Microsoft Silverlight must be installed in order to view these elements.

Data Sources:

Data on the NEworks site comes from a variety of sources, including BLS programs, the US Census, and online job postings. Be aware that data from online job postings is not gathered by the Dept. of Labor and is for informational use only. Such data should not be used for analysis or reporting.
